

## Meeting Your Special Needs

Do you or a loved one need special assistance? Are you a father who uses a wheelchair and would like to teach your son to fish? Would your friend who is blind enjoy hearing stories of the past aboard a rumbling train? Would your daughter who is deaf be amazed seeing a heron swallow a fish as a sign language interpreter translates a bird program? Has your child been diagnosed with Down Syndrome and wants to attend overnight camp? The number of people with disabilities is an ever-growing group in our nation. This is the only group that *any person can become part of, at any time!* Cuyahoga Valley National Park is here to remove barriers and build enjoyable experiences for everyone.

### If You Have Mobility Needs

- All visitor centers are accessible. See a park map or visit [www.nps.gov/cuva](http://www.nps.gov/cuva) for exact locations and specific features.
- Many of the national park's most popular attractions are fully accessible: the Ohio & Erie Canal Towpath Trail

(including the Beaver Marsh near Ira Trailhead—the exception is a steep incline over Lock 29), the Everett Road Covered Bridge, Brandywine Falls, and the heronry along Bath Road.

- Cuyahoga Valley National Park is a partner in Spree for All, a universally accessible hiking series organized by Metro Parks, Serving Summit County.
- Horseshoe Pond has an accessible fishing pier.
- Wheelchair access is available on Cuyahoga Valley Scenic Railroad.
- The reservable picnic shelters and the Ralph Regula Room at Boston Store Visitor Center are accessible rental facilities.
- Cuyahoga Valley National Park and its partners offer a series of Canalway Quests, treasure hunts with rhyming clues that tell how a place is special. Each quest includes a description of mobility considerations; several are wheelchair accessible.
